

AT LAST . . .
DRY DRENCHING!
 with "PHENOVIS"

5 Gramme PHENOTHIAZINE PELLETS

"Phenovis" 5 gramme pellets bring a host of advantages to the sheep farmer. They permit no staining during drenching . . . they are easy to handle and administer. "Phenovis" also eliminates guesswork, as each pellet contains accurate doses of Phenothiazine.

Full particulars of "Phenovis" dry drenching will be supplied free of charge on application to:

TOMOANA CALF PELLETS

*The Modern Calf
 Food; every ounce
 standardised.*

Containing linseed meal, fish meal, meat meal and selected cereal meals, Tomoana Calf Pellets are fed dry before the weaning stage, and in this way the calf's digestive organs become more easily accustomed to solids. The effect of weaning is cushioned by the concentrated food of Tomoana Calf Pellets, so that the calves will grow steadily and without check into robust and sturdy yearlings.
