for

You can enrich your hay and make sure it opens up next season in first-class condition by using TOMOANA HAYSTACK MIXTURE. TOMOANA HAYSTACK MIXTURE is a molasses-salt-mineral mixture, specially made as a crumbly meal for easy handling of the molasses. It is simply thrown on, layer by layer, as the stack is built. The mixture works in two ways. Not only does it give a good "cure" to the whole bulk of the hay, but it also forms part of the molasses diet in winter when hay is normally fed out.

TOMOANA HAYSTACK MIXTURE
