If you switch to

**DRY DRENCHING
with "PHENOVIS"**

Phenothiazine Pellets

**YOU'LL DRENCH QUICKER
AND MINIMISE THE RISK
OF WOOL STAINING.**

THIS scientific phenothiazine DRY drench has won New Zealand-wide praise.

"PHENOVIS" Pellets are safe, accurate, labour-saving. Accurate dosage is certain because each contains exactly 5 grammes of phenothiazine. The dose, given by a special instrument, ensures no "spit-out" and minimises risk of wool staining during drenching. Easier to carry than heavy liquids—and there's much less chance of waste. Order now for the season ahead.
