

## AN IDLE DIESEL IS CAPITAL LOCKED UP

The one sure way to keep your diesel running perfectly, day in day out, month after month, is to **KEEP IT CLEAN**. C.A.V. Fuel Injection Equipment is so sturdy and reliable that it almost invites you to neglect it. But study your handbook and treat the filters as directed. And be scrupulously clean with the fuel oil too.

It is wise economy to have a periodical check-over by a C.A.V. factory-trained expert. A call to any of the addresses below will place one at your disposal.

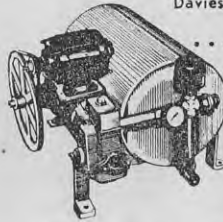

**Fuel Injection Equipment keeps on with the job**
