

WHAT IS A VALUER?

Prudent buyers and sellers act only upon the advice of a Registered or Public Valuer. The Registered or Public Valuer makes valuation for rates, rents, taxation purposes and all matters connected with Real Estate. In 1948, the Government created the Valuers Registration Board and only men of high integrity, ability, experience and qualifications are granted registration. Thus the public are protected by dealing only with a Registered Valuer or Public Valuer. Professional examinations are held annually and a university course is available.

The Institute publishes a quarterly journal devoted to current valuation problems with articles contributed by leading men in the profession.

Issued by the Public Relations Committee.

New Zealand Institute of Valuers,

If you switch to DRY DRENCHING with "PHENOVIS" Phenothiazine Pellets

You'll Drench Quicker
And Minimise The Risk
Of Wool Staining.

THIS scientific phenothiazine DRY drench has won New Zealand-wide praise.

"PHENOVIS" Pellets are safe, accurate, labour-saving. Accurate dosage is certain because each contains exactly 5 grammes of phenothiazine. The dose, given by a special instrument, ensures no "spit-out" and minimises risk of wool staining during drenching. Easier to carry than heavy liquids—and there's much less chance of waste. Order now for the season ahead.

But I've switched off....

Maybe you have, but

ACID ACTION

doesn't stop then

Research has proved that ACID ACTION is just as much a menace to an engine when it's idle as when it's toiling under heavy duty conditions. Even built-for-tough-work farm tractors do not escape. **Shell X-100 Motor Oil** contains additives which neutralise corrosive acids and make the oil spread evenly and firmly, clinging to engine parts under all conditions.
