To kill Parasites on Stock, dust with COOPER'S LOUSE POWDER

Lice and other parasites on your cattle, horses and stock generally cause intense irritation, disturbed feeding and loss of condition. Thanks to the special spreading properties of COOPER'S LOUSE POWDER and its remarkable persistence in the coat, ONE dusting is normally sufficient to kill all lice present and destroy any young ones hatching from the nits. It will effectively destroy keds and lice on stud sheep if infestation occurs at a time when dipping is undesirable. Supplied in handy 1lb. duster top cartons, COOPER'S LOUSE POWDER should be on every farm.

COOPER'S POWDER FLY SPRAY

A most valuable aid in the prevention of Fly strike on sheep for a lasting period.

One spraying provides at least 5-6 weeks' protection at a cost of about 3d. per head. 2lb. packet makes 20 gallons spray.

Drenching with Ease and Accuracy

VICTOR DRENCHING GUN

The drenching operation is vastly simplified and tedium removed if you use a VICTOR GUN. Outstanding features of this excellent gun are its accuracy, simplicity, light weight, and sturdy construction. Designed for Phenothiazine, nicotine-sulphate and all water based drenches. The pistol is calibrated up to one fluid ounce, and if larger doses are required it is simply necessary to give two light pressures. PRICE £11 (subject to alteration).

COOPER'S MAGGOT DRESSING

After temporary withdrawal from the market for technical reasons, this very effective product is again available packed in 1 pint bottles. Apart from healing properties and aid in preventing re-strike, the objective of a fly strike dressing is to eliminate maggots from the wound so that none remain to putrify—Cooper's Maggot Dressing is designed for this purpose.

COOPER'S MAGGOT DRESSING:

1. Is not irritant.
2. Non staining.
3. Highly concentrated—1 pint makes 4 gallons of dressing.
