Farmers, you can't get even weight on all four quarters weighting claws with stones or scraps of iron—throw them away and replace with Mill's Cup Weights. Mill's Cup Weights are made in various sizes to fit most makes of cups. They ensure even weight on all teats, eliminate stripping and give cleaner, faster milking.

Mill's Cup Weights fit around the bottom portion of the cup, they're simple to fit, easily removed. You'll get better results by using Mill's Cup Weights right from the commencement of milking.
