

A Johnson's Fence means

SECURITY FOR VALUABLE STOCK

Johnson's English Wire, drawn with the skill of 150 years' experience, is protected by patented Hot Dip Galvanising. This ensures long life in New Zealand's climatic conditions and it is particularly resistant to the corrosive action of salt-laden air.

Remember when fencing new Paddocks or replacing old fences, ask for and buy the best. . . .

Vetspen Hypodermic provides an economical and convenient way of preventing and curing penicillin-sensitive infections in farm stock. It contains both crystalline and procaine penicillin; this combination gives the high level of penicillin necessary to control rapidly developing infection and the prolonged antibacterial action needed to eradicate established infection. By using the appropriate strength of Vetspen Hypodermic, a farmer can give penicillin treatment to his stock quickly and without the inconvenience of frequent injections.
