LAMB TAILING  
and CASTRATION

**Operate  
early**

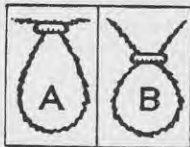

The younger the lambs the safer the operation.

- Seal the tail with an Elastrator ring, then immediately shear off the tail a little below the ring.
- This makes lamb tailing positive, bloodless, safe and practically painless.
- For lamb castration the Elastrator ring is bloodless and unsurpassed.

and for **Positive**

CALF CASTRATION

use the  
ELASTRATOR  
RING as follows:

- Place ring on purse making sure both Testes are in the purse.
- Pull ring down to position just above the Testes, this leaves plenty of room for COD FAT to develop.
