

EACH - A VITAL LINK IN WOOL PRODUCTION

SHEEPDOGS in New Zealand play an important role in the control of nearly 50,000,000 sheep.

As sheepmen rely and depend upon such faithful servants so, too, do they rely and depend upon the unrivalled quality and service of . . .

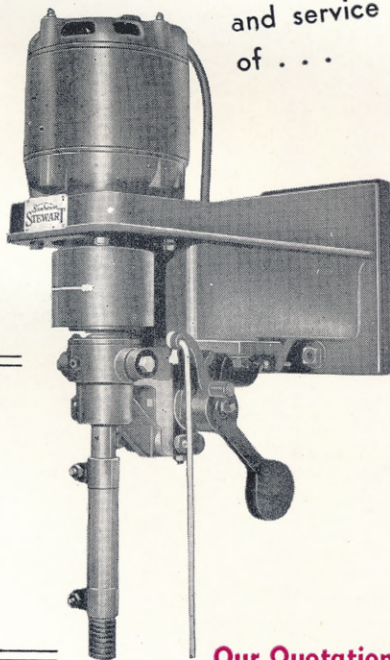

The NEW design HORIZONTAL MODEL

developed by Sunbeam Stewart specially for the small woolshed . . . it's a two-purpose unit that has all the Sunbeam Stewart quality and precision workmanship behind it.

Provision has been made for driving a single-ended, belt-driven, ball-bearing grinder direct from the shearing motor without the use of a countershaft and this combination provides the most economical and complete electric shearing plant for the smaller sheep owner.

A notable feature of the new design is the $\frac{1}{2}$ h.p. electric motor which provides ample shearing power and a full reserve to drive the grinder.

Sunbeam STEWART

ELECTRIC SHEARING GEAR

Made and guaranteed by SUNBEAM CORPORATION LTD., Australia

The NEW design VERTICAL MODEL is the result of long and careful research, study and improvement wherever possible of the previous type. It has been precision-built—tested—pulled down and again tested. These tests, over a long period (much more severe than normal use), have seen it come out with flying colours. The new vertical gear is the answer to electric shearing efficiency, reliability and long service.

The famous EB HANDPIECE is standard equipment with SUNBEAM STEWART SHEARING GEAR.

Our Quotation will prove that . . . Sunbeam Stewart Quality Costs No More
