**ON THE RIGHT TRACK  
For Low-Cost Transport**

Every working day, an average of eight goods trains (four each way) over each mile of New Zealand's railway system carry as much freight as about 200 heavy motor trucks. Just one train can carry hundreds of tons of precious freight with a minimum expenditure of fuel and manpower.

Railwaymen, with continually improving equipment and modern methods, will gladly advise you about the low-cost transport services available daily.
