### MISCELLANEOUS INFORMATION.

Medal for Long Service and Good Conduct has been awarded in terms of Regulation 327 to the following member of the Force:—

No. 2019, Constable Le Sueur, Herbert James.

Memorandum.]

#### Collection of Agricultural and Pastoral Statistics.

The Government has decided that the collection of Agricultural and Pastoral Statistics for the coming year shall be wholly undertaken by the police. For this purpose members of the Force in charge of stations will be appointed sub-enumerators for their respective sub-districts. Each sub-enumerator shall be responsible for the collection of returns for all holdings in his sub-district that come within the scope of the inquiry.

The collection will commence in February or March according to locality, and will be completed as early as circumstances permit without undue interference with police duties.

Lists of occupiers of holdings as returned previously will be supplied by the Government Statistician to sub-enumerators for their guidance in tracing holdings. Sub-enumerators are, however, to ascertain locally any changes of occupancy of holdings.

Sub-enumerators shall collect returns personally from occupiers within easy reach without incurring any expenditure on account of meals or locomotion. In other cases the schedules are to be posted or otherwise distributed by sub-enumerators to occupiers for completion and return.

Particulars on schedules shall be scrutinized by sub-enumerators and transcribed into collection-books for despatch to the Government Statistician.

For their services in checking lists, distributing and collecting schedules, and posting the details into the collection-books, sub-enumerators will be paid 3d. per schedule collected (less 10 per cent. deduction under National Expenditure Adjustment Act, 1932), payment to be made by the Government Statistician to the sub-enumerator on completion of the collection in his sub-district.

No payment for meals or locomotion expenses will be made, as it is expected that all returns that cannot be obtained during the ordinary course of police duty will be collected by post. It is desirable, however, that sub-enumerators should get in touch with as many occupiers as possible and personally collect particulars from them to ensure accuracy of the returns.

Stamps required for postage or for payment of postage on schedules received from occupiers or for any necessary toll calls are to be requisitioned for on the local Postmaster, the Police Officer to sign as Sub-enumerator of Agricultural and Pastoral Statistics, and to make the claim chargeable to the Census and Statistics Office.

Correspondence on ordinary routine matters in connection with the collection shall be direct between the Government Statistician and the sub-enumerators. Communications regarding special points which may affect the Police Department shall be made through the usual police channels.

A supply of books, schedules, and envelopes, together with full instructions as to the method of collecting and posting the returns will be issued to sub-enumerators by the Government Statistician.

In view of the financial situation, this Department has in the interests of economy agreed to the work being undertaken entirely by the police without the engagement of civilians in any district, and the co-operation of the members of the Force concerned is requested to make the returns as complete and accurate as possible.

W. G. WOHLMANN, Commissioner of Police.

Wellington, 24th November, 1932.
