Circular 13/36.]

Motor Allowance and Relieving Duty.

When it is necessary to send a Constable to a station to perform relieving duty during the absence on leave or for any other cause of the officer in charge of the station or other member who is paid an annual car allowance, care should be taken to send a man who has a motor-car. The relieving officer will draw the car allowance payable at the station during the period he is relieving. The allowance is to be computed as follows: for each day's relieving 1/365th of the annual allowance. Such amount will be deducted from the official ordinarily drawing the allowance and paid to the relieving officer. In the event of the transfer of an officer who is drawing a car allowance, the relieving officer will be paid the allowance allotted to the station until such time as a successor is appointed.

When a sub-district is during the absence of the officer in charge to be supervised by the officer in charge of an adjoining sub-district and the latter is in receipt of a car allowance in respect of his own sub-district, the question of any additional allowance payable is to be submitted to this office for decision.
