# NEW ZEALAND POLICE GAZETTE.

PUBLISHED BY AUTHORITY.

WELLINGTON, WEDNESDAY, JANUARY 13, 1937.

## GENERAL INSTRUCTIONS.

**1. Police Gazette.**—All communications of Police interest concerning this Gazette shall be addressed to the Commissioner of Police, Wellington, and the envelope marked "For Gazette." Members of the Force in charge of out-stations will forward them direct.

The non-delivery of the Gazette at any station to be promptly reported, and pressing inquiry made to trace the same.

**2. Arrests.**—The arrest or location of persons described in the Police Gazette, or respecting whom crime reports or other notices have been forwarded for insertion in the Gazette, should be promptly notified by the member of the Force effecting the arrest, or location, who will be held responsible for the notification.

The officer in charge of the station at which the arrest or location is effected shall be responsible for seeing that such notification appears in the next available issue of the Gazette, and shall report the non-publication in the Gazette of any such notification.

When notifying the arrest of persons charged with theft, or suspected of theft, it should be stated whether the property stolen, or any portion of it, has been recovered, and the Gazette reference given.

**3. Crime Reports.**—A copy of each crime report bearing the **actual signature** of the officer authorized to issue such at the originating station or detective office shall be immediately forwarded to the Commissioner's Office for Gazette purposes. The officers in charge of districts will be held responsible for the proper circulation of reports relating to crimes committed in their respective districts. Where there is reason to believe that the offender is proceeding towards any particular part of the Dominion, the police of the district in which the crime was committed should report the fact to the police of that place with the least possible delay. They should also communicate without delay with the police of any part of the Dominion from which it is thought probable that important information regarding any offender can be obtained.

**4. Descriptions.**—Offenders or persons for whom inquiries are to be made should be accurately described: Their age, height, occupation, build, country, dress, and every particular likely to lead to their arrest and identification minutely given, and offence clearly defined.

**5. Finger-prints.**—The efficacy of the finger-print system for establishing the identity of criminals can scarcely be overstated. It is directed that **search be made for finger-prints** in every case of crime in which finger-prints are likely to attend the commission thereof; and the result, whether profitable or not, is to be embodied in the crime report concerning it, or in a supplementary crime report as soon after as possible. If finger-prints of supposed offenders are found they should be carefully protected until photographed or the article with print on removed.

When the death occurs of any person whose finger-prints may be on record the decease of such person is to be reported through the usual channel so that the records in the Criminal

Registration Branch may be adjusted. The deceased's last Police Gazette and Photographic reference, if any, should be quoted in the report.

When the body of a deceased person is not identified members of the Force who are dealing with the matter should take the finger-prints of the corpse on the usual finger-print forms, and forward them, together with a full description and a careful note of all distinguishing-marks, through the proper official channel to the Commissioner.

When obtaining the finger-prints of a deceased person care should be taken that, after the fingers are inked, the form is folded, placed against a small piece of cardboard or other similar substance, and rolled around each finger separately. If this is not done it will be difficult to get a satisfactory "rolled" impression.

**6. Fugitive Offenders.**—In cases where extracts are taken from Australian or other Police Gazettes, and inserted in the Police Gazette of this Dominion, for the apprehension of fugitive offenders, no arrests are to be made until communication has been sent to and instructions received from the Commissioner of Police, Wellington.

**7. Names.**—In all crime reports, notices, or returns the names of persons and places should be spelt correctly and written legibly. Surnames should be printed in block letters as, SMITH, John. Whenever possible, both in correct names and aliases, the christian name should be given and written in full to prevent mistakes.

**8. Offences.**—When compiling returns, &c., for Police Gazette purposes, offences must be clearly and fully defined, and not referred to as "Breaches of Gaming Act," "Breaches of Licensing Act," "Vagrancy," &c. **Great care must be taken** to see that the latest previous Gazette and Photographic references, if any, are given. (See also Circular, No. 5, on page 622 of Police Gazette, 1916.)

**9. Property found.**—A description of property, supposed to be stolen, found in the possession of offenders, for which owners cannot be found, should be furnished for insertion in the Gazette.

**10. Property described.**—When describing watches and jewellery stolen, the trade description given on the illustrations published with the first issue of the Police Gazette, 1911, should be followed, the number of the illustration being quoted in each instance. In describing watches the number and maker's name should if possible be given, and it should be stated whether they are gold or silver, ladies' or gentlemen's, open-faced, hunting, double-cased, or half-hunting, the term "double-cased" being reserved for those watches whose outer case is removed in order to wind, "half-hunting" implying a very small glass in the metal cover of the dial. In describing bicycles the numbers should if possible be given, and whether they are ladies' or gentlemen's. All property should be described as minutely as possible. The age, height, breed, colour, particular marks, value, &c., of horses should be given, and the brands described as fully as possible, and their exact position stated. Cattle and sheep should be also carefully described, and earmarks given distinctly in writing. In forwarding the brands of horses and cattle per telegram it should be stated of what kinds of letters the brands consist, whether of Roman capitals or otherwise.

## PERSONS WANTED

11. **Returns of Persons dealt with at Supreme Courts.**—These returns are to be prepared at the conclusion of each fixed criminal sitting, and should contain a record of all criminal cases dealt with by the Supreme Court between the previous sitting and the expiration of the one for which the return is prepared, together with a complete description of every person whose name appears thereon, and shall be immediately forwarded to the Commissioner of Police for insertion in the Gazette.

The member of the Force in charge of any case committed to a Supreme Court shall record on the file relating to such case a complete description, including distinguishing marks, &c., and the last Police Gazette and Photographic reference, if any, of each person so committed.

12. **Rewards.**—No notice of rewards offered by any private person or persons will be inserted in the Police Gazette unless there be forwarded to the Commissioner's Office the guarantee of some responsible person that the reward shall be payable to the person who performs the service for which it is offered. If such notice be communicated by telegraph, the addition of the words "Guarantee received" will be sufficient; in such case, however, the guarantee must be forwarded to the Commissioner's Office without delay.

13. **Stray Cattle, &c.**—No notification of lost horses or cattle will be published in this Gazette unless they be Government property; but notices of horses or cattle believed to be stolen will be inserted.

14. **Supplementary Reports.**—In all reports respecting cases gazetted members of the Force will quote the year and page of the Police Gazette in which the previous notice has appeared, and in reporting arrests or locations of persons inquired for should state by whom effected. Supplementary reports of cases already reported, but not gazetted, where arrests are made or stolen property recovered, should at once be forwarded to the Commissioner's Office, and should contain such information as will clearly identify the case.

15. **Warrants.**—All reports of crime must state whether or not a warrant has been issued for the arrest of the offender, and, if a warrant has been issued, the date of issue, and by whom and where issued, should be stated. Should a warrant not have been issued in the first instance, but one be subsequently obtained, a supplementary report announcing the issue must be immediately forwarded to all places where the original report has been sent. The supplementary report should give the date of the original crime report, or quote the year and page of the Police Gazette in which the previous notice has appeared. Persons reporting crimes shall be requested to obtain warrants whenever practicable. Crime reports relative to commitment warrants should give the full amount due, including cost of warrant, the term of imprisonment in default, and the goal to which the committal is made. Unless there are some good reasons to the contrary particulars of distress warrants will not be published in the Police Gazette.

16. **Duties of Officers in Charge.**—Officers in charge of Stations shall:—

- (1) Cause the Police Gazette to be carefully filed.
- (2) Cause to be marked off in the Police Gazette (showing particulars) all arrests, recovery of property, missing friends located, &c., as notified in any subsequent Gazette.
- (3) See the Police Gazettes are not torn, defaced, or injured, or improperly removed from the files, offices, or police building.
- (4) Be held responsible that reports forwarded from their Station for insertion in the Police Gazette are properly formulated.

Failure to observe and disobedience of these "General Instructions" shall be treated as a disciplinary offence under the Police Regulations.

D. J. CUMMINGS, Commissioner of Police.

Wellington, 13th January, 1937.

(10) After the 31st day of March, 1937, where the light from some other artificial source than the head-lamps is sufficient to render clearly visible a pedestrian or similar substantial object at a distance of 300 ft. or when the vehicle is

*Revised (See Serial No. 1939/76.)*

stationary, the driver of any motor-vehicle shall use the lights from side-lamps instead of from head-lamps or shall dim or dip the lights from the head-lamps thereof.

(11) The lights or any of the lights prescribed by this regulation need not be displayed while the motor-vehicle is stationary on the roadway, provided that the vehicle is lighted from some artificial source so that its position on the roadway is clearly visible at a distance of 150 ft.

(12) In the case of a motor-vehicle of any of the kinds referred to in Regulation 6 hereof, it shall be sufficient compliance with the requirements of this regulation if such vehicle is provided with at least three lamps the light of which is visible for 300 ft. under normal atmospheric conditions one at each side of the vehicle placed so as to display a white light to the front and sides thereof, and one at the rear of the vehicle placed so as to display a red light to the rear thereof and not to be visible from the front thereof, and such lamps need not be permanently attached to the vehicle.

(13) Except as permitted by clause (8) of this regulation, no vehicle shall be equipped with a lamp that displays towards the rear any light other than a red light or with a lamp or reflecting surface that displays towards the front any red or reddish light:

Provided that this clause shall not apply to lamps of low candle-power in the interior of a passenger-vehicle serving to light the interior for the convenience of passengers.

#### REGULATION 8.—EQUIPMENT: BRAKES.

(1) In this regulation, unless the context otherwise requires,—

“Foot-brake” means a brake readily applicable by use of the driver’s foot:

“Hand-brake” means a brake readily applicable by use of the driver’s hand and capable of remaining applied for an indefinite period without further attention than the initial application:

“Independent brake” means a brake of which the entire operating mechanism or system is either—

(a) Distinct and separate from all parts or connections of any other brake or brake system, so that the brake in question cannot be adversely affected by the operation or failure of any other brake; or

(b) Common to any other brake or brake system only in parts or connections which are of such design and strength that under normal operating conditions and with a proper standard of maintenance there is no reasonable probability of failure of the independent brake by reason of the failure of any other brake or brake system:

*Revised Serial No. 1939/76.*

“Trailer” means any trailer as defined by the said Act, and includes any number of such trailers drawn by the same tractive vehicle.

(2) No person shall operate a motor-vehicle unless it is equipped with two independent brakes, one being a foot-brake and the other being a hand-brake, and each complying with the requirements of this regulation so far as applicable.

(3) No person shall operate a motor-vehicle unless with its load (including any trailer and its load which may be attached), upon a hard, dry, level roadway free of loose material, and without assistance from the compression of the engine—

(a) The foot-brake is capable of bringing the vehicle to a standstill within a distance of 40 ft. from a speed of twenty miles per hour; and

(b) The hand-brake is capable of bringing the vehicle to a standstill within a distance of 70 ft. from a speed of twenty miles per hour, and is also capable of holding the vehicle at rest on a grade of one in five.

(4) The provisions of the last two preceding clauses shall not apply to a trailer or a vehicle propelled by steam power, or a vehicle of the self-laying-track type, or a motor-cycle with or without a side-car attached.

(5) No person shall operate a trailer the weight of which when loaded exceeds two tons unless it is equipped with a hand-brake which when applied on the loaded trailer alone is capable of meeting the requirements for a hand-brake prescribed in clause (3) hereof.

(6) No person shall operate a motor-vehicle propelled by steam power or of the self-laying-track type unless it is equipped with a brake or brakes adequate to control its movements and to stop and hold such vehicle.

(7) Every brake referred to in this regulation which simultaneously applies the braking-pressure on two wheels or drums with a common axis shall be so adjusted or fitted that the braking effect is approximately the same on each road wheel.

(8) Every brake referred to in this regulation shall be capable of easy adjustment, and shall be maintained so that at all times it is efficient and in good working order.

#### REGULATION 9.—EQUIPMENT: WARNING DEVICES.

(1) No person shall operate a motor-vehicle unless it is equipped with a warning device in good working order capable of emitting sound audible under normal conditions from a distance of not less than 300 ft.

(2) Save as provided in the succeeding clauses of this regulation, no person shall operate a motor-vehicle if it is equipped with a bell, siren, or whistle; and no person shall at any time use a warning device otherwise than as a reasonable traffic warning or make any unnecessary or unreasonably loud, harsh, or shrill sound by means of a warning device.

(3) Every motor-vehicle for use by a fire brigade for attendance at fires, and every motor-vehicle for use by a police officer or traffic inspector in discharge of his duties as such, may in addition to the warning device referred to in clause (1) hereof be fitted with a siren for use only on urgent occasions.

(4) Every driver of a motor-vehicle who has reasonable cause to believe that he is being signalled to stop or make way by means of a siren equipped under the authority of the last preceding clause shall do so as soon as may be possible with safety.

(5) Every ambulance may in addition to the warning device referred to in clause (1) hereof be fitted with a bell for use only on urgent occasions.

REGULATION 10.—EQUIPMENT: GENERAL.

(1) Save as provided in the next succeeding clause, no person shall operate any motor-vehicle having the steering-column to the left of the longitudinal centre-line of the body of the vehicle.

(2) So long as the motor-vehicle is fitted with a mechanical signalling-apparatus approved by the Minister the following are exempted from the provisions of clause (1) hereof:—

(a) Any vehicle registered before the 1st day of April, 1928:

(b) Any vehicle temporarily exempted in writing for a period not exceeding one month by the Registrar or a Deputy Registrar of Motor-vehicles until such time as the exemption by the Commissioner is granted or refused as hereafter provided:

(c) Any vehicle exempted in writing by the Commissioner of Transport for the period of such exemption.

(3) Every instrument of exemption granted in terms of paragraphs (b) and (c) of clause (2) hereof shall be carried on the vehicle and produced on demand by a police officer or traffic inspector.

(4) No person shall operate any motor-vehicle other than a motor-cycle unless it is equipped—

(a) With a mirror so located as to reflect to the driver a view of the roadway to the rear sufficient for driving requirements; and

(b) After the 31st day of March, 1937, with an efficient mechanically-operated wind-screen wiper to prevent interference with the driver's vision by weather conditions.

(5) No person shall drive a motor-vehicle fitted with a wind-screen forward of the driver unless such wind-screen is at all times kept clean and clear so that the driver's view forward will not be impeded or obstructed.

(6) The Minister may consider the suitability of any appliance, apparatus, or device, or any type of appliance, apparatus, or device, intended to be used on or in connection

with a motor-vehicle in terms of these regulations, and if such appliance, apparatus, or device, or such type of appliance, apparatus, or device, is approved by the Minister for use in terms of these regulations by notice published in the *Gazette*, the use of an appliance, apparatus, or device so approved, or of a type so approved, shall, while such appliance, apparatus, or device is properly maintained in efficient working-order, be deemed to be a compliance *pro tanto* with the said regulations. Any approval given under this clause may, in manner aforesaid, be at any time withdrawn by the Minister.

(7) No person shall operate any motor-vehicle with chains or other metal devices used over the tires unless the use of such chains or devices is necessary on account of the condition of the road surface.

(8) No person shall operate any motor-vehicle unless it affords a ready means of entrance and exit for the passengers and driver thereof.

(9) No person shall operate any motor-vehicle having any door used for entrance and exit of the passengers or the driver unless every such door is fitted with an efficient permanently fixed device for opening and closing the door, capable of being operated from both the outside and the inside of the vehicle, and readily available at all times for use by the driver and by the passengers within the vehicle.

(10) No person shall operate a motor-vehicle having affixed thereto any ornament, decoration, or ornamental fitting in a position where it is likely to strike any person with whom the vehicle may collide unless the ornament, decoration, or fitting is such that it is not liable to cause injury by reason of any projection thereon.

#### REGULATION 11.—MOTOR-VEHICLE INSPECTION.

(1) Save as provided in clause (3) hereof, the driver of every motor-vehicle used on a road after the 31st day of March, 1937, shall carry in the vehicle a warrant of fitness in the form prescribed in the First Schedule hereto issued in respect of that vehicle and disclosing thereon a date of examination not earlier than six months before such use. The warrant of fitness shall be issued only by a city authority or a person or firm appointed or approved for the purpose by the Minister, and such appointment or approval shall be notified in such manner as the Minister directs. *See Serial No. 1943/199.*

(2) For each such warrant issued by an officer of the Crown, a fee of 5s. shall be payable by the owner to the Commissioner or to the Reserve Bank of New Zealand or any branch of the Bank of New Zealand to the credit of the Public Account.

(3) This regulation shall not apply to any vehicle lawfully used in terms of a license or certificate of fitness or permit issued under the Transport Licensing Act, 1931, or in terms of a license to carry for hire issued by a competent authority.

- (e) Rise to such a height as to be liable to damage any construction lawfully over the roadway used by the vehicle, or in any case to a height exceeding 14 ft. from the ground; or
- (f) Drag on or make moving contact with the roadway otherwise than by means of the wheels or by means of a drag-chain attached for the purpose of complying with the Fourth Schedule to the Dangerous Goods Regulations, 1928.

(2) The controlling authority may give written permission in the case of a load or series of loads, which cannot otherwise conveniently be transported, for the operation of any vehicle contrary to the provisions of clause (1) of this regulation; and such permission shall be subject to such conditions as to route to be followed, time during which the vehicle may be so operated, or other conditions, as the controlling authority thinks fit to impose. When it is proposed that the vehicle shall traverse the districts of two or more local authorities such permission, subject to any such conditions as aforesaid, may be given by the Commissioner or any person appointed by him for the purpose, in which case it shall not be necessary to obtain such permission from any controlling authority. When any permission is given in terms of this clause the excess or irregularity of the load shall be suitably indicated by means of a white rectangular cloth at least 18 in. long and 9 in. wide borne on the vehicle or load.

## REGULATION 13.—TOWING.

(1) No person shall operate any motor-vehicle which is being used to tow another vehicle if the space between the vehicles exceeds 12 ft. unless written permission of the controlling authority is obtained, and unless in addition a white rectangular cloth at least 18 in. long and 9 in. wide is attached midway to the means of connection between the vehicles.

(2) No person shall during hours of darkness tow any vehicle unless it is fitted with a white light at the front sufficient to show the towing connection, and with a tail-light complying with the provisions of clause (5) of Regulation 7 hereof.

(3) Except in the case of a load which cannot otherwise conveniently be transported, and then only with the written permission of the controlling authority,—

(a) No person shall operate any motor-vehicle which is being used to tow more than one vehicle (otherwise than as a trailer); and

(b) No person shall operate any motor-vehicle which is being used to tow trailers so that the combined length of motor-vehicle and trailers together with any load thereon and inclusive of connections exceeds 60 ft.

(4) No person shall operate any motor-vehicle which is being used to tow a trailer or trailers unless every vehicle is safely and securely attached to the vehicle in front of it.

(5) Any permission given in terms of clause (1) or clause (3) of this regulation shall be subject to such conditions as to route to be followed, time during which the vehicle may be operated under the permission, or otherwise as the controlling authority thinks fit to impose.

#### REGULATION 14.—RULES OF THE ROAD.

(1) Every driver of a motor-vehicle shall keep the vehicle as close as is practicable to his left of the roadway.

(2) Every driver of a motor-vehicle shall at all times keep the vehicle as far as practicable to his left of any longitudinal line or lines on the roadway marked at corners, bends, or turnings by local authorities for the direction of traffic.

(3) Save when otherwise directed by a police officer or Traffic Inspector at controlled intersections, every driver of a motor-vehicle shall, when overtaking a vehicle other than a tram, pass on his right or off side of the overtaken vehicle, and shall not then move into the line of passage of the other vehicle until clear from it by at least 18 ft.

(4) The driver of any motor-vehicle shall not drive the vehicle, or any portion thereof, past the extreme rear of a tram making in the same direction which is stopped for the purpose of discharging or embarking passengers at an indicated stopping-place, other than a stopping-place where a safety-zone is interposed between the tram and the motor-vehicle.

(5) Every driver of a motor-vehicle intending to turn at an intersection from any roadway into another roadway to his right shall, when approaching and turning, maintain his position to his left of the centre-line of the roadway out of which he is turning until he enters the area of the intersection, and shall then turn into the roadway into which he is entering as directly and quickly as he can with safety.

(6) Every driver of a motor-vehicle when approaching or crossing any intersection the traffic at which is not for the time being controlled by a police officer, traffic inspector, traffic-control lights, or the presence of a compulsory-stop sign, and to or over which any other vehicle (inclusive of trams) is approaching or crossing, so that if both

*subject to the provisions of  
next succeeding clause*

*See  
Serial No. 1943/199*

continued on their course there would be a possibility of collision, shall, if such vehicle (being other than a tram) is approaching from his right, or if such vehicle (being a tram) is approaching from any direction, give way to such other vehicle, and allow the same to pass before him, and, if necessary for that purpose, stop his vehicle. No driver of a motor-vehicle shall increase the speed of his vehicle when approaching any intersection under the circumstances set out in this clause.

(7) Every driver of a motor-vehicle shall yield the right of way to a pedestrian engaged in crossing the roadway within any authorized pedestrian-crossing upon the half of the roadway over which such vehicle is lawfully entitled to travel, and when approaching such crossing the driver shall reduce his speed so as to be able to stop before reaching the crossing if necessary.

(8) Whenever a motor-vehicle has stopped or slowed down to yield the right of way in terms of the last preceding clause it shall be unlawful for the driver of any other motor-vehicle approaching from the rear to overtake and pass such vehicle.

(9) The provisions of the last two preceding clauses shall not apply at an authorized pedestrian-crossing where traffic is for the time being controlled by a police officer, traffic inspector, or traffic-control lights.

(10) No driver of any motor-vehicle shall overtake or attempt to pass any vehicle proceeding in the same direction—

- (a) At an intersection, or within a distance of 30 ft. before an intersection, if the other vehicle is travelling at a speed greater than six miles per hour:
- (b) Unless the driver has a clear view of the road and the traffic thereon for a distance of at least 300 ft. in the direction in which he is travelling.

#### REGULATION 15.—DRIVERS' SIGNALS.

(1) Every driver of a motor-vehicle whenever in view of other traffic and unless prevented by sudden emergency shall, before manœuvring the vehicle in manner hereinafter described, give reasonable notice of his intention so to do in manner hereinafter provided.

(2) If he is about to stop or reduce speed—

- (a) He shall extend the right arm directly outwards from the right or off side of the vehicle with the upper arm horizontal and the forearm vertical; or
- (b) If the vehicle is equipped with suitable automatic signalling-apparatus at the rear of the vehicle, he may indicate his intention by means of the said apparatus.

(3) If he is about to turn to the right or draw out from the kerb towards his right—

- (a) He shall extend the right arm directly outwards from the right or off side of the vehicle in a horizontal position; or

- (b) If the vehicle is equipped with suitable mechanical signalling-apparatus capable of giving a signal closely corresponding to the signal described in paragraph (a) of this clause, he may indicate his intention by means of the said apparatus.

REGULATION 16.—SPECIAL PROVISIONS RELATING TO  
MOTOR-CYCLES.

(1) The following special requirements apply to motor-cycles in addition to those requirements of this Part which apply to motor-vehicles inclusive of motor-cycles.

*Head-lamp.*

(3) No person shall operate a motor-cycle unless it is equipped with at least one brake attached thereto which is capable of bringing to a standstill the motor-cycle and the side-car (if any) attached thereto, without assistance from the compression of the engine, within a distance of 40 ft. from a speed of twenty miles per hour upon a hard, dry, level roadway free of loose material, and which is capable of easy adjustment, and is maintained so that at all times it is efficient and in good working order.

*Foot-rests.*

(4) No person shall operate any motor-cycle unless adequate foot-rests are attached thereto for the use of every person carried thereon otherwise than in a side-car.

*Silencers.*

(5) No person shall operate a motor-cycle unless it is equipped with a silencer which is effective and in good working order, and is so constructed or adapted that it is impossible to interfere readily with the effectiveness of the silencer at any time.

*Loading.*

(6) No person shall operate any motor-cycle (whether with a side-car attached or not) if any part of the vehicle or its load projects more than 2 ft. in front of or more than 3 ft. to the rear of the wheels of such motor-cycle, or projects more than 1 ft. 6 in. on either side of the longitudinal centre-line of the motor-cycle unless a side-car is attached, when the load may project not more than 6 in. beyond that side of the side-car which is farthest from the motor-cycle.

- (7) No person shall drive a motor-cycle—
- (a) Carrying any person upon the motor-cycle in front of the driver; or
  - (b) Without side-car and carrying more than two persons, or carrying any person seated otherwise than astride and facing forward; or

It shall be a defence to any proceedings for a breach of this clause if the defendant proves that his motor-vehicle was travelling behind another vehicle up to which the roadway was clear and that the defendant's speed was such that he could stop short of the other vehicle in the event of a sudden stop by the latter.

(2) Any controlling authority which hereafter fixes a speed-limit for motor-vehicles under its by-laws or other authorized enactment shall forthwith send a copy of such by-laws or enactment to the Minister together with a map or plan of the road or locality affected showing the position of the traffic signs hereinafter referred to. The controlling authority shall maintain upon such road or within such locality the traffic signs prescribed for local speed-limits by the Traffic Sign (Speed Limits) Regulations, 1936,\* at the places indicated on the said map or plan at all times while such speed-limit is in force but shall remove the signs as soon as the by-law or corresponding enactment is revoked, disallowed, or otherwise abrogated.

  - (c) The foregoing particulars shall have been verified by the signature in the register of the person to whom delivery is given.
- (3) If delivery of a motor-vehicle be given elsewhere than at the garage-proprietor's place of business, it shall be sufficient compliance with this regulation if the foregoing particulars and signature be taken on a detached paper and affixed in the register at some time on the same or next following day.
- (4) Every garage-proprietor shall, whenever required so to do, produce his register for inspection or copying by any police officer or Traffic Inspector, and on ceasing to make further entries in any volume of his register shall deliver the same for custody for one year, and subsequent destruction, to the officer in charge of the police-station nearest to his place of business.
- (5) This regulation shall not apply to any case in which the garage-proprietor supplies a driver for the motor-vehicle and it is not intended that the motor-vehicle should be driven during the period of hiring by any person other than the driver so supplied.

(4) No person shall operate a bicycle unless it is equipped with at least one efficient brake attached thereto and operating on the rear wheel.

(5) No person shall operate a bicycle unless it is equipped with a bell as a warning device attached thereto and capable of being readily operated so as to emit sound clearly audible under normal conditions at a distance of not less than 100 ft.

(7) Every rider when about to turn to his right in view of other traffic shall, before doing so, unless prevented by physical incapacity, give reasonable notice of his intention by extending his full arm horizontally to the right.

(8) No rider when passing round the corner of a roadway shall travel to the right of any other vehicle proceeding in the same direction unless he has a clear view of the roadway for at least 150 ft. ahead.

(9) No rider shall travel on the right of more than one bicycle proceeding in the same direction as himself nor travel on the right of another bicycle when overtaking any vehicle nor except while overtaking it travel on the right of any vehicle other than a bicycle proceeding in the same direction as himself.

  - “Road” includes road, street, or other place to which the public have access, and includes any portion of a road (as herein defined) that is physically continuous with any other portion of road, whether bearing a separate name or not, if one of such portions is and the other is not subject to any speed-limit or exclusion from a speed-limit to which these regulations relate :
  - “Traffic sign” means a sign as described in these regulations.

4. Traffic signs shall be of the following classes :—

Class Y : That is to say, signs denoting—

- (a) The speed-limit of thirty miles an hour referred to in section 3 of the said Act, or
- (b) A local speed-limit.

Class Z : That is to say, signs denoting—

- (a) The exclusion by the Minister of any road in a borough or town district from the speed-limit of thirty miles an hour imposed by section 3 of the said Act, or
- (b) The end of a road subject to a local speed-limit, or
- (c) The end of a road subject to the speed-limit of thirty miles an hour referred to in section 3 of the said Act.

5. Signs of Class Y shall be in the form of diagram No. 1 in the Schedule hereto, that is to say, a disc 18 in. in diameter, coloured red, bearing a roundel 12 in. in diameter, coloured white, charged with arabic numerals coloured black 6 in. high with stems 1 in. wide to represent the speed-limit in miles an hour.

6. Signs of Class Z shall be in the form of diagram No. 2 in the Schedule hereto, that is to say, a disc 18 in. in diameter, coloured white, charged with a bend sinister  $4\frac{1}{2}$  in. wide, coloured black.

7. All supports of traffic signs if used solely as such shall be coloured white.

8. Subject to the provisions of Regulation 12 hereof, a sign of Class Y shall be erected—

- (a) At every motor-traffic approach to a closely populated locality.
- (b) At each end of every road affected by any local speed-limit, and also at or near every such road in such a way that the driver of a motor-vehicle turning into such road from any other road that is fit and reasonably suitable for motor-traffic in general may have a reasonable opportunity of being aware of the existence of such speed-limit.
- (c) At each end of any road excluded by the Minister from the speed-limit of thirty miles an hour imposed by section 3 of the said Act and so as to face persons leaving such road :  
Provided that if one end of such road is at the boundary of a borough, town district, or closely populated locality, then the sign shall not be erected at such end.

9. A sign of Class Y may in the discretion of the local authority be erected—

- (a) At any other part of a road at the ends of which a sign of Class Y is by the last preceding regulation required to be erected.
- (b) In borough and town districts and closely populated localities on any part of a road affected by the speed-limit fixed by section 3 of the said Act.

10. Subject to the provisions of Regulation 12 hereof, a sign of Class Z shall be erected—

- (a) At each end of any road excluded by the Minister from the speed-limit of thirty miles an hour imposed by section 3 of the said Act, and so as to face persons approaching such road.

(b) At each end of a road subject to a local speed-limit and so as to face persons leaving such road.

**11.** A sign of Class Z may in the discretion of the local authority be erected at the end of a road in a borough, town district, or closely populated locality subject to the speed-limit imposed by section 3 of the said Act if the substantially direct continuation of such road is not subject to a speed-limit and if the sign is erected so as to face persons leaving such road.

**12.** Where by Regulation 8 or Regulation 10 hereof a sign is required to be erected in a specified place, it shall be deemed a sufficient compliance with such requirement if the sign is erected at some other place approved by the Commissioner of Transport within or adjoining the district of the local authority.

**13.** It shall be sufficient compliance with the requirements of these regulations if the local authority continues to maintain in lieu of any sign of Class Y or Class Z hereinbefore required a sign of Class D as described in Regulation 16 of the Motor-vehicle Regulations, 1933, which was erected and maintained at the date of coming into force of these regulations, and any such last-mentioned sign shall be deemed to be the sign described by these regulations.

**14.** Every sign the erection of which is required by these regulations shall be erected by the local authority :

Provided that it shall be sufficient compliance with this regulation if a sign is erected by an erecting authority on behalf of the local authority.

**15.** The local authority liable for the erection of a traffic sign and every local authority that has erected a traffic sign that remains in position at the coming into force of these regulations shall at all times while such sign remains in position maintain the same in good repair, undefaced, and undamaged, and with the colours thereof and the characters thereon in bright, clear, and legible condition.

**16.** Every erecting authority erecting a traffic sign shall erect the same at such a site, at such a height above the level of the road, and generally in such a position and manner that, subject to any provisions herein to the contrary, it shall—

- (a) Not be a source of danger to pedestrian or other traffic :
- (b) Where practicable, be clearly and readily visible for at least 200 ft. before reaching it to the driver of a motor-vehicle approaching it :
- (c) Where practicable, be illuminated by the headlights of approaching motor-vehicles :
- (d) Where practicable, appear on the left-hand side of the road to a person approaching the locality to which it is intended to refer :  
 Provided, however, that a sign of Class Z may be placed on the reverse of a sign of Class Y notwithstanding that it may thereby appear on the right-hand side :
- (e) Give persons approaching it sufficient time for its warning or information to have the full value,

17. In every district or part of a district where a system of street-lighting is in existence the local authority shall cause a street-lamp or other lamp to be placed in such a position as to illuminate adequately the face of every traffic sign duly erected, and shall cause such lamp to be kept alight during the time in which street-lamps in the locality are for the time being usually kept alight.

18. No local authority shall erect or maintain, or cause or permit to be erected or maintained, or to be on any road or in any place visible from a road, any traffic sign in or similar to either of the forms hereinbefore described which is not used solely for denoting the respective matters set out in Regulation 4 hereof.

19. No person shall, except in the capacity of an employee of the erecting authority, erect or maintain, or cause or permit to be erected or maintained, or to be on any road or in any place visible from a road, any traffic sign unless authorized thereto in writing by the erecting authority.

20. In the case of a sign of Class Y erected under due authority by an automobile association, the association may have its monogram placed on the lower portion of the sign, on the red ground, in white lettering or symbols which are containable entirely within a circle of not more than 2 in. diameter.

21. No person shall erect or maintain, or cause or permit to be erected or maintained, or to be on any road or in any place visible from a road, any sign, device, or object liable to be mistaken for a traffic sign.

22. No person shall cause or permit his name, or the name of any business carried on by him, or the name of any wares dealt with by him, to be displayed on a sign which is so erected or maintained that its erection or maintenance constitutes a breach of any provision of these regulations :

Provided that it shall be a defence to any person charged with an offence against this clause if such person proves that the sign was erected and maintained without his knowledge, or that before the date of the offence he gave notice in writing to the occupier of the land on which the sign is erected requiring such occupier forthwith to remove the sign.

23. No person shall remove, mutilate, obscure, or in any manner damage or interfere with any traffic sign.

24. It shall be a defence to any person charged with driving a motor-vehicle at a speed in excess of a speed-limit if such person proves that at the time and place of the alleged offence the required traffic signs were not duly erected and maintained.

25. Every person who—

(a) Fails to comply with any condition, duty, or obligation imposed by these regulations ; or

(b) Offends against or fails to comply with any of these regulations—

shall be deemed to have committed an offence and shall be liable to a fine of £50.
