Report of Analysis by Professor Black,
Colonial Analyst:—
University Laboratory,
Dunedin, 21st Oct., 1878.

Thomas Reynolds, Esq.,
Sir,—I have the honour to report on five
samples of Port Wine forwarded by you for
analysis. These samples may all be described
as full-flavoured, fruity, aromatic Wines; pos-
sessing in a considerable degree that agreeable
fragrance that characterises genuine Port.
They do not contain impurities of any kind.
The perfect freshness of these Wines from
every kind of impurity, the proportion of
Sugar and Alcohol which they contain being
quite characteristic of unadulterated, unman-
ipulated Wine, together with their rich frag-
rance, arising from aromatic ethers, should
strongly recommend them and gain for them
a good place in the colonial market.

(Signed) JAMES G. BLACK,
Colonial Analyst.
