

[CIRCULAR.]

IN continuing the responsibility of a Dental Practice, I have adopted the modern system of doing business, adding the latest appliances, and carefully making myself and assistants perfect in our several branches.

Many friends have supported me most liberally—some for years. I take this opportunity of thanking them, and to express a hope that they will find it advantageous to still further increase my obligations to them.

To those to whom I have not had the pleasure of attending in the past or latterly, I can only add that I shall be very pleased to see them, and will do my best to prove my worthiness of their support and confidence.

I venture to think that, in the interests of patients generally, I am not out of place in calling attention to the fact that for the last 26 years I have bestowed my attention to the climatic, artistic, and general requirements of a Dental Practice in this Colony.

In conclusion, I can only repeat my earnest desire to carry out consistently and honestly the sentiment of good faith, which has been my rule in past years.—Yours faithfully,

JOHN P. ARMSTRONG, Dentist.

The following facts may be noted:—

The **£8 SET OF TEETH**, is as good in every respect as used to be charged double the money for. The reason is owing to a remarkably advantageous arrangement for getting materials, etc., of a superior quality at a cheap price.

The **PAINLESS EXTRACTION** is a new idea, entirely free from bad after effects. Although most difficult cases have been undertaken, not more than 1 per cent. have felt the slightest pain, while numbers testify to its efficacy.

Arrangements can always be made for payment by degrees. Scrupulous care is taken in each and every case, ensuring best and uniform results.
