FERAUD'S COMPOUND EXTRACT OF SARSAPARILLA.

Prepared only by J. D. FERAUD,
MacLaggan Street, Dunedin.

University Laboratory,
Dunedin, 4th March, 1884.

I have analysed J. D. Feraud's COMPOUND EXTRACT OF JAMAICA SARSAPARILLA and find it to be a well-prepared mixture of extracts of sarsaparilla and mezereon, with a number of other organic compounds, sweetened and coloured with sugar and caramel. It is free from mercury and all other mineral poisonous substances. In composition it is similar to Dr. Townsend's Sarsaparilla, differing mainly in the proportions in which the ingredients are present.
