#### TESTIMONIAL.

Elm Grove, East Taieri, Aug. 22, 1893.

The Mercer Binder that I bought from you last season gave me the greatest satisfaction. In green, tangled, or very heavy crop I consider it has no equal, on account of the elevating process being performed without the use of canvas, which is always such a trouble to keep in order. The mechanism of the machine is first-class, and I am sure, with ordinary care, will do a great amount of work with very little expense.

WILLIAM KIRKLAND.

Mr Kirkland has since bought a second Mercer, to cut his hillsides and slopes, & of which this machine is equally well adapted.
