Dr Brownson wrote: "I never in a single instance found a single article, dogma, proposition or deficition, of faith which embarrassed me as a logician, or which I would, so far as my own reason is concerned, have changed or modified, or in any way altered from what I found it, even if I had been free to do so. I have never found my reason struggling against the teachings of the Church, or felt it restrained, or myself reduced to a state of mental slavery. I have, as a Oatholic, felt and enjoyed a mental freedom which I never conceived possible when I was a noc-Catholic.

At the New York Academy of Music on Sunday, May 26, the Bev Thomas Dixon, a Protestant minister, created something of a sensation when he pronounced Protestantism in New York a failure, "For twenty years," he said, "Protestantism in New York has been a colossal failure. As at present constituted, the majority of the churches in the city are doing nothing, but are a positive hindrance to the progress of Christianity, and are repuditted by the spirit of Christ. They are an incumbrates on the face of the earth, a plague and a hindrance to the advancement of truth, because they are, as Christ says in the gospel, 'neither hot nor cold.' The Baptist denomination in this city owns proper y worth 4,000,000 dols, and although within the last twenty years 15,000 children have been born into that faith, they have actually in that time lost 2000 members. The combined wealth of the Baptist, Presbyterian, and Methodist Churches is here 16,000,000 dols. There are in these Churches the brainiest men of the age, and yet they are not holding their own. They are a curse, b cause they are only maintaining the traditions of a dead past. This machinery is so much sacred by junk, to be sure, but junk all the same—that should be put up at auction and sold to the bighest and best bidder. What the people want is a new Church (applause and one hiss)—a Church that will be popular, a Church that will reach the masses, and that is what the Churches of New York at the present time are trying to avoid."
