# DUNEDIN WOOL SALES, 1895-96.

We have much pleasure in announcing that our Wool and Corn Stores are now ready for the reception of the ensuing clip, and being very well lighted, and built specially for the most effective display of the Wool, it offers Unequalled Advantages to Growers. Ample space being available, there is room for THE FULLEST DISPLAY OF THE ENTIRE CLIP.

The Dunedin Market has now established itself beyond doubt as the Best for Growers. By selling here they save the risk of a change in market value and the many expenses attending shipment, and have the advantage of the produce being sold under their own inspection and subject to their own control. The yearly increasing quantity arriving and disposed of here, proves that this market is thoroughly established as the most advantageous to Growers.

The most careful attention is given to the valuation of all los, whether large or smell, and every endeavour is made to secure the highest possible market value for the consignments, an additional guarantee to Vendors being that we act strictly as Selling Brokers only, on commission.

Our charges will be 2½ per cent, commission up to £200, 1½ per cent, commission over £200, and ½3 per 1b for receiving, classing, weighing, storage, etc.

Sales will be held every fortnight during the season, and proceeds paid over within six days of sale.

In the case of Wool offered for sale and not sold the charges are is per bale only.

Note.—Wool can be consigned to our store any time to suit Grower's own convenience, where it will be a ored free of charge, and will be offered when instructions are given to a li. It is safe there and folly covered by insurance.

JOHN GRINDLEY, Manager.
