THE "WHITE MAN'S BURDEN"

Has during the last decade been considerably lightened by the advent of the Pneumatic Tyred Safety Bicycle. It was the advent of

DUNLOP TYRES

in 1888 that first brought the advantages and possibilities of the Cycle before the public. The adoption of the Detachable Dunlop in 1892 further popularised Cycling and brought it within the reach of all, and now the culminating point is reached by our placing on the market the nearest approach to a perfect cycle tyre ever attained. The New Tyres will be known as the . . .

MULTIFLEX

DUNLOP TYRES

and will be speedily recognised by all Australian cyclists as a **necessity when Comfort, Speed, Reliability and Ease of Attachment are the desiderata.**

We have taken up the white man's burden,
And issued a tyre so strong
That in future the New Multiflex Dunlops
Will carry all cyclists along.
No need for further anxieties,
All cyclists can ride on in peace,
The New Multiflex Tyres are beauties—
Guaranteed to ensure comfort and ease

We have taken up the white man's burden
In helping the mighty throng
Of cyclists who wheel o'er Australia
In the delights of wheeling along.
Safe on their Multiflex Dunlops
To accomplish by deeds on the wheel,
The art of seeing the country,
By means of the Dunlop wheel.

We have taken up the white man's burden
By giving a tyre that will stand
To those cyclists who ride for pleasure,
Those of the happy roving band.
So that the roughest of roads have no terrors,
Nor the puncture fiend the power to detract
From the pleasure derived from wheeling
Way back on the old coach track.

First in 1888. Foremost ever since.
