COUGHS, COLDS, BRONCHITIS, & c.

DR. DOBELL,

SENIOR PHYSICIAN TO THE BROMPTON HOSPITAL FOR DISEASES OF THE CHEST, says:—

"If we could nip every Catarrh in the bud what a catalogue of ills we should prevent. And yet this is not such a difficult thing when we have a chance of trying it. But, unfortunately, Colds are thought so lightly of by patients that they seldom try to stop them till they become severe, have lasted an unusual time, or have produced some complication. Nevertheless, I believe they would do better in this respect if they had more faith in the possibility of stopping Colds; if they knew that Colds could be stopped without lying in bed, staying at home, or in any way interfering with business."

BAXTER'S LUNG PRESERVER
SPECIALLY REMOVES CATARRH, And even where Complications have arisen, used according to the directions, it effectually eradicates the complaint.

DR. EWART writes:

"I regard your Lung Preserver as a really good preparation. In cases of Asthma it quickly cuts short the paroxysms. In Chronic Bronchitis or Winter Cough it is useful; the discharge of mucus is greatly assisted, and the wheezing and difficulty of breathing are greatly relaxed by it. In Acute Bronchitis it is also beneficial, and whilst it tends to check inflammation, it promotes expectoration and thus relieves the difficult and laborious breathing so general in these attacks. As a Cough Medicine for persons of all ages it is excellent."—*vide "Book for Every Home."*
