

NEW PROCESS TOMATO SAUCE.

AFTER DINNER

[The following lines have been written on the Tomato as a cure for dyspepsia. The fruit has of late years been largely recommended by physicians as one of the most useful alteratives that can be taken, and especially for all forms of indigestion and the complications arising therefrom.]

Don't talk to me of coleranth or famed cerulean pill,
 Don't mention hyoseyan us or aloes when I'm ill;
 The very word podophyllin is odious in mine ears;
 The thought of all the drugs I've taken calls up the bleeding tears
 The Demon of Dyspepsia (a sufferer waits to say)
 At sight of the tomato plant will vanish quite away.
 The Faculty will diet you till digestion stops,
 On what have always seemed to me interminable slops;
 A daunt dish is sure to be the worst thing you can eat;
 The bismuth and the charcoal come like nightmares after meat;
 Away with all restriction now, bring mutton, beef, and veal,
 As long as ripe tomatoes come to supplement a meal.

Hepatic action, doctors say, is very hard to start,
 And if you have too much of it, that also makes you smart;
 And so the fate of many folks, especially in town,
 Is first to stir the liver up, and then to calm him down.
 Now he can trouble us no more, although we go the pace;
 A diet of tomatoes keeps the tyrant in his place.
 Away with deleterious drugs, for here's a plant been found,
 Worth all the weird concoctions that dispensers can compound;
 Get fresh tomatoes, red and ripe, and slice and eat, and then—
 You'll find that you are liver-less and not like other men.
 Come ye who dire dyspepsia's pangs impatiently endure;
 It cannot hurt, and may do good, this new tomato cure.
