

WALTER A. WOOD MOWING AND REAPING MACHINE CO

NO FOUNDATION LESS FIRM AND STRONG THAN QUALITY

Would support and increase the Vast Sale of

WALTER A. WOOD MOWERS

Every owner of a genuine WOOD Mower will say that he seldom or never made so good an investment of the same amount of money as when he bought it.

All Farmers and dealers are courteously invited to investigate our products, if not already well acquainted with the effect of our forty years of lively and world-wide experience with harvest implements.

OUR RAKES hold an unblemished reputation among the practical hay-makers of all lands. We keep them up to the grade of our Binders and Mowers.

We would ask the attention of the thinking Farmer to the POINTS THAT HAVE BEEN GAINED in the

WALTER A. WOOD

SINGLE APRON HARVESTER AND BINDER

That were not enjoyed before—

- Greater compactness and firmness
- Decreased weight. Gain of about one-third in ease of draught
- Time of driver saved by avoiding stoppages. Increased cleanness of harvesting
- No grain shelled in elevating
- Grain brought to the binder in better shape and therefore better bound
- Capacity for very long crops

It will be seen that (without hesitation) we merely present facts of the construction, for thinking men. In many parts of the country WALTER A. WOOD SINGLE APRON TWINE-BINDING HARVESTER is so well known and its record now so firmly established as to make a description or advertisement needless; but to those who as yet know it not, this advertisement will be of use.
