Messrs. Donald Reid and Co. (Limited) report:—

We held our weekly auction sale of grain and produce at our stores on Monday. For nearly all lines catalogued there was fair competition up to late values, and in consequence a good sale resulted. Prices ruled as under:—

Oats.—There has seldom been a smaller quantity of oats offering at this season of the year. Buyers are keen to purchase at late quotations, but are not at present in a position to advance on same. Values are however, firm, with a tendency towards improvement. Quotations: Special seed lines, 2s to 2s 2d; ordinary do, 1s 10d to 2s; prime milling, 1s 8½d to 1s 9d; good to best feed, 1s 7d to 1s 8d; inferior and medium, 1s 5d to 1s 6½d per bushel (sacks extra).

Wheat.—Local business during the week has been confined to a few sales of prime Tuscan and red wheat but no improvement in values is to be recorded. Fowl wheat is scarce and meets with good local demand. Quotations: Prime milling, 3s to 3s 1d; medium to good, 2s 10d to 2s 11d; whole fowl wheat, 2s 8d to 2s 9½d; broken and damaged, 2s 5d to 2s 7d per bushel (sacks extra).

Potatoes.—Consignments have come forward freely during the past week and with heavier supplies offering, it has been difficult to maintain late values. Prices to-day suffered to the extent of about 5s per ton. Quotations: Best seed sorts, £7 to £7 10s; best Derwents; £6 10s to £6 15s; white sorts, £6 to £6 15s; all conditioned lines, £5 to £6 per ton (sacks in).

Chaff.—There is a good local demand for really prime lines of bright, well-cut oat sheaf, and this class is saleable at £3 to £3 2s 6d per ton. Nearly all consignments coming forward are deficient in color, and are selling at £2 10s to £2 17s 6d; inferior and light, at £2 to £2 7s 6d per ton (bags extra).

Hay.—This is in full supply. Best clover and rye-grass sells at £2 15s to £3; medium, £2 5s to £2 10s per ton (pressed).

Pressed Straw is in over-supply, and selling at reduced values. Quotations: Best oaten, 32s 6d to 35s; wheaten, 27s 6d to 30s per ton.

Turnips.—The market is again very fully supplied, and in consequence prices to-day receded to 11s per ton (loose, ex truck).

Messrs. Stronach, Morris, and Co. report:—

Oats.—Supplies are scarce, but prices, although firm, do not show an advance. Prices: Prime milling, 1s 8½d to 1s 9d; good to best feed, 1s 7d to 1s 8d; inferior and medium, 1s 5d to 1s 6½d. Special seed lines, 2s to 2s 3d.

Wheat.—Business has been quiet during the week, and there is no change to report in prices. Fowl wheat, however, is in good demand. Quotations: Prime milling, 3s to 3s 1d; medium to good, 2s 10d to 2s 11d; whole fowl wheat, 2s 8d to 2s 9½d; broken and damaged, 2s 5d to 2s 7d.

Potatoes.—Supplies are now more plentiful, and prices eased about 5s per ton. Best seed sorts, £7 to £7 10s; best Derwents, £6 10s to £6 15s; white sorts, £6 to £6 15s.

Chaff.—There is a good demand for prime samples, which bring from £3 to £3 2s 6d per ton.

### WOOL.

London, June 29.—Wool: At the Antwerp wool sales there was a large attendance, and the bidding was animated. Ordinaries advanced five centimes, prime 10, and seconds 15. There was a good competition for a small quantity of crossbreds.

The Bradford wool market is very strong, and more business is doing. Forties, 17d; 46's, 18½d; common 60's, 25½d; super, 25¾d.

At the sheepskin sales 3000 were offered and sold under good competition. Merino combings and clothings were ½d to ¾d dearer, and crossbreds, 1d dearer.

Messrs. Stronach, Morris, and Co. report:—

Rabbitskins.—We offered a large catalogue at our sale on Monday to the usual attendance of buyers, and prices were quite up to last week's, viz., winters (mixed bucks and does) up to 17½d, autumns to 14½d, summers to 8½d, fawn to 14¾d, and blacks to 33½d. Winter does (selected) to 19d.

Sheepskins.—We submitted a large catalogue on Tuesday, and competition was again very keen, prices being a shade better than last week's, best halfbreds bringing up to 9½d per lb. We can confidently recommend consignments at present, and we are sure returns would give satisfaction.

Hides.—We offered a catalogue of 525 hides at our sale last Thursday to an average attendance of buyers. Prices for heavy and medium weights were somewhat easier, but light weights held their own. We obtained up to 6½d for ox hides, and for cow hides up to 4½d, but we had nothing of exceptional merit forward.

Tallow and Fat.—There is an easier tone in the market, although there is no change to report in prices since last report.

### LIVE STOCK

#### OTAGO FARMERS' HORSE BAZAAR.

The Otago Farmers' Co-operative Association of New Zealand (Limited) report:—

We held our usual weekly sale of horses at our bazaar on Saturday last, when we had a fair entry of 35 draughts, light harness, and spring-cart horses, and a fair attendance of farmers and town carriers. Competition was not so keen as has been the case for the last few weeks. This, however, was naturally to be expected after so many large sales being held lately. We had no heavy geldings forward, and in consequence no sales in this class were made. A few useful light spring-van horses were included in our list, and the bulk of this entry found new owners at satisfactory prices. Spring-carters were fairly well represented, and a number of buyers were present for them, consequently a number of changes of ownership took place, young horses of course taking the lead in values, although geldings, seven to nine years old, brought extremely good values. Quotations: Heavy draught mares and geldings, £50 to £60; plough horses, suitable for four-horse teams, £40 to £45; van geldings, £40 to £50; order-cart horses, £22 to £30; heavy spring-carters, £25 to £32.

#### ADDINGTON STOCK MARKET.

At the Addington yards there were fairly large entries of stock in nearly all departments, and there was a good attendance. Beef sold at about the previous week's rates, and there was no change in the values of prime fat lambs. Store sheep, except wethers, were firmer, but pigs of all classes were dull of sale. Prime fat wethers were firm, but unfinished sorts and ewes that were not really prime were easier. There was only a moderate demand for store cattle and dairy cows.

Fat Lambs.—There was a fairly large yarding of fat lambs, a considerable portion being unfinished. There was good competition for prime lots, which maintained
