Messrs. Donald Reid and Co., report as follows:—

Messrs. Donald Reid and Co. (Ltd.) report:—We hold our weekly auction sale of grain and produce at our stores on Monday, when we submitted a small catalogue of oats, wheat, potatoes, chaff, and straw. There was a good attendance of the local buyers, and the demand was sufficiently strong to ensure a fair clearance of our catalogue at market rates. Values ruled as under:—

Oats.—The new season's crop is coming forward more freely, and the quality in nearly every case is such as to give the utmost satisfaction to shippers and other buyers. Fair business has been done for immediate and forward delivery, but buyers find some difficulty in selling at a profit, and on this account are not readily disposed to accept lines at quotations. Vendors, on the other hand, are in most cases holding firmly for last week's prices, and sales are therefore not quite so readily affected. Quotations: Prime milling, 2s 3d; good to best feed, 2s 2d to 2s 2½d; inferior to medium, 2s to 2s 1½d per bushel (sacks extra).

Wheat.—The new wheat now coming to hand from the Taieri compares favorably with that of any previous season we remember. Prime milling is in good demand for direct consignment to the mills, and most of the newly threshed wheat is being dealt with in this way. Locally, fowl wheat is scarce, and commands prices fully equal to or a shade ahead of milling quotations. At our sale on Monday best fowl wheat sold at 4s 7d. Quotations: Prime milling lines, 4s 5½d to 4s 6d; medium to good, 4s 4d to 4s 5d per bushel (sacks extra).

Potatoes.—The market is fairly well supplied, and values are slightly weaker. Quotations: Best freshly dug lots, £5 5s to £5 10s; medium, £4 10s 6d to £5 per ton (bags incl'd).

Chaff.—Fair supplies of new chaff are coming to hand, and being generally sound and bright, have fair sale to fulfil local requirements. In consequence of the increased quantity coming forward prices have receded slightly, but we have fair inquiry for shipment, and this is likely to keep values steady. Quotations: Prime old oatensheaf, £3 17s 6d to £4 2s 6d; medium £3 10s to £3 15s; best new chaff, £3 2s 6d to £3 5s; medium to good, £2 15s to £3; inferior and heated, £2 5s to £2 10s per ton (bags extra).

Messrs. Stronach, Morris, and Co report:—

Oats.—There are a large number of samples of new oats in the market, coming chiefly from the north. For best samples 2s to 2s 1d, less commission, on trucks has been procured. There are very few old oats in stock, and these are selling chiefly for feed purposes. Quotations: Prime milling, 2s 3d; good to best feed, 2s 2d to 2s 2½d; inferior to medium, 2s to 2s 1½d per bushel (sacks extra).

Wheat.—There is a fair business being done in wheat, but the markets in the north being higher than local quotations holders are not disposed to sell. Fowl wheat is scarce and commands prices equal to milling values. Prime milling, 4s 5½d to 4s 6d; medium to good, 4s 4d to 4s 5d per bushel (sacks extra).

Chaff.—There is a good supply of new chaff coming forward, and it is in fair demand for local feed purposes. There is a good deal being shipped, and this tends to keep prices at late rates. Quotations: Prime old oatensheaf, £3 17s 6d to £4 2s 6d; medium, £3 10s to £3 15s; best whole fowl wheat, £3 2s 6d to £3 5s; medium to good, £2 15s to £3; inferior and heated, £2 5s to £2 10s per ton (bags extra).

Potatoes.—The market is fairly well supplied and prices have receded slightly. Best freshly dug lots, £5 to £5 10s; medium to good, £4 10s to £5 (bags in).

Pressed Straw.—Oaten, £2 7s 6d; wheaten, £2 5s per ton.

WOOL

Messrs. Stronach, Morris, and Co. report:—

Sheepskins.—At our usual fortnightly sale we offered a medium catalogue to a large attendance of buyers. Bidding was brisk, but prices did not show any advance on last rates except for lambskins. Best half-bred brought 7½d to 8d; medium to good, 6d to 7d; best crossbred, 6d to 6½d, medium to good, 5½d to 6d; light and inferior, 4d to 4½d; lambskins, 5½d to 6½d; medium to good, 4d to 5d; merino, 6d to 6½d; medium to good, 5½d to 6d; best pelts, 4d to 4½d; medium to good, 3d to 3½d.

Tallow and Fat.—There is not very much coming forward, and anything of good quality meets with a ready sale. Best rendered tallow brings from 22s to 24s (casks); medium to good, 19s to 21s 6d; poor and inferior, 15s to 17s; best rough fat, 17s to 19s; medium to good, 14s to 16s; inferior, 10s to 12s 6d.

LIVE STOCK

DUNEDIN HORSE SALEYARDS,

Messrs. Wright, Stephenson, and Co. report as follows:—To a fairly good attendance of buyers we offered moderate entry of horses on Saturday last, the major portion being aged and worn-out sorts from town dealers and other vendors in and about the city. Only a few of the draughts forward could be described as serviceable, the balance being old and done, and although there were several buyers in quest of first-class sound, young horses, unfortunately at this sale there were very few animals these buyers could bid for. This market is exceedingly bare of first-class heavy town shafters. We quote: Superior young draught geldings at from £45 to £50; extra good do. (prize-winners), at from £50 to £55; superior young draught mares at from £50 to £60; medium draught mares and geldings at from £30 to £40; aged do. at from £15 to £20; well-matched carriage pairs at from £70 to £100; strong spring-van horses, at from £25 to £30; milk-cart and butchers' order-cart horses at from £18 to £35; light hacks at from £8 to £13; extra good hacks and harness horses at from £13 to £25; weedy and aged do, at from £5 to £7.

Numbers of physicians and druggists are now prescribing and recommending TUSSICURA because of the valuable lung tonic and expectorant qualities being combined. Tussicura is a distinct advance in medical science, and is the most masterful remedy known for ailments of the throat and lungs.—1s 6d and 2s 6d per bottle at all good chemists and stores; or direct from the proprietors.
