### THE SECRET HISTORY OF THE CONINGHAM CASE

Dr. O'Haran's Vindication and How it was Brought About.

The Cause Celebre of the New Century.

The Church Militant and the Church Triumphant.

It may be safely said that the people of Australasia—Catholic and Protestant, Jew and Gentile—have seldom, if ever, before taken so much interest in any trial as they did in the Coningham Case. And it may be added that a verdict never gave greater satisfaction to all decent citizens, irrespective of creed, throughout the Commonwealth, than that which, at the end of the second trial, sent Dr. Haran out of the Courts of Law with a stainless reputation and a soul made stronger by the suspense and suffering of many weary months. The true story of this example of modern martyrdom should be read by not only every Catholic, but by every lover of justice in the land. It will be found to be full of surprising incidents, of plots and counter-plots, curious episodes, and cunning intrigues.

#### The Secret History of the Coningham Case.

Will contain all these, and will be illustrated with PHOTOGRAPHIC FACSIMILES of the Documents quoted in the case and many others that did not appear in Court, and have never before been published. The sole right to publish these rests with the Proprietor of this work.
