Amber Tips Tea— Best for Worker and Wealthy

"Fine tea means better health."

This is the dictum of "The Lancet," as the result of a lengthy and exhaustive enquiry regarding into tea and its effect on the human system, "The Lancet" investigation was conducted by the experts and scientists of this famous medical journal and proved that every one should drink fine teas like AMBER TIPS.

Moreover, it demonstrated that fine teas at 2/- per lb. give more cups per lb., and hence are almost as cheap as tea at 1/6.

You owe it to yourself to drink AMBER TIPS—the finest of fine teas. There's no better value on the market, while the special air-proof, damp-proof package preserves all the delicious flavour and aroma.

AMBER TIPS can be taken with absolute comfort by those of weak digestion.

Remember "The Lancet" says "Fine tea means better health."
