SYMPATHY.

If there is one person who deserves sympathy it is surely he who suffers from chronic colds. A sudden change in the weather or going out into the night air from a heated room, is quite enough to bring on the trouble. Usually the tendency to catch cold is due to a generally run-down condition, and the treatment should take the form of a tonic like BAXTER'S LUNG PRESERVER. It is pleasant to take, gives sure results, and is quite harmless; for children and adults you cannot find a better cough or cold remedy. 1/10 a bottle from all chemists and stores, or by post direct.
