Are Your Teeth Really Clean?

Although you use a dentrifice regularly, possibly you expect too much from it.

Remember, powder or paste won't remove all tartar—won't clear away decaying matter from minute recesses—won't save a tooth once the enamel is destroyed.

It will pay you to supplement daily brushing by visiting a competent Dentist every three or six months. Why not consult me NOW? My advice costs nothing.

Remember, every day's delay means greater decay.

Entrust the care of your Teeth to me straightway and you'll command a Dental Service widely known for its Skill, Carefulness and Consideration.

Superior Plates, Fillings, Crowns—also Bridge-work guaranteed for Ten Years—all at Moderate Fees.

NURSES IN ATTENDANCE.

W. P. Semmerville

GOITRE

THE humiliating disfigurement and discomfort of Goitre or thickened neck can, in most cases, be removed by **Doig's Goitre Treatment**—a remedy with over 3000 successes to its credit. It usually reduces the swelling within two or three weeks. Seldom fails to completely remove the trouble within a few months, leaving no trace. Easy to take—will not upset the system—contains nothing deleterious even to a child or nursing mother.
