REPAIRS BY SKILLED WORKMEN.

Why does the Doctor tell you to boil milk before giving it to invalids and children ?

Simply because the Doctor knows that raw milk, as it is retailed in the cities, contains bacteria that can only be destroyed by boiling! Measles, Whooping Cough, Infantile Paralysis, Scarlet Fever, Typhoid Fever, and Consumption—all these and many other diseases have been traced to impure milk, to raw milk. You cut out all risk and ensure perfect germ-free purity by using

HIGHLANDER MILK

for every use to which raw milk is put.

"HIGHLANDER" MILK is the product of the Southland herds of Highlander Cows. In the "HIGHLANDER" MILK process of manufacture, only pure cane sugar is added, nothing else—no preservatives, no chemical of any kind. When the process is complete, the milk is immediately tinned in air-tight sanitary tins, so you buy it in all its creamy goodness.

YOUR GROCER SELLS IT!

Order it by name—
you're sure it's pure.
