## \*\*\*\*\* The AEOLIAN VOCALION \*\*\*\*\*

This is an artistic musical instrument which produces from Gramophone disc records such pure tones, so faithful to the original, that it gives genuine pleasure to all. A novel feature is the GRADUCLA device which allows you to control the tone and expression of every selection. In fact, you play the piece according to your fancy. The new Sound Box and Symphonetic Horn are vast improvements upon anything previously invented in the Talking Instrument World.

**Comfort!**

JUST a final warm-up before bedtime, dreamily watching the flames change colour and shape in the open fire of a Zealandia Range. Compare the comforting blaze with the black, dead cheerlessness of other ranges—and remember, the Open Fire saves Fuel. For perfect baking, a plentiful supply of hot water, and all-round Efficiency, the "Zealandia" is **Supreme.**

We Always Recommend The "Unique"

The Present High Price of COAL is a very strong argument in favor of the "Unique" Boiler.

A Central Otago Man writes:—  
 "We have already used the "Unique" Boiler Frame and in comparison with a built-in copper, in regard to economy of fuel, no sane, sensible person could hardly imagine the difference. It certainly is all you claim for it."

This unsolicited evidence proves that it pays handsomely to discard the built-in-copper with its heavy fuel consumption and buy an Up-to-Date "Unique."
