Make a Note of Why DUNLOP TYRES Give the Best Service

THE CASING.—The Strength and Quality of the Canvas used in Dunlop Motor Cycle Covers ensures you freedom from bursts and annoying tyre troubles. Ample strength is embodied in every cover we issue to carry you thousands of miles over the roughest of roads.

THE RUBBER TREAD.—Only the highest grade Rubber is used—and plenty of it. Light-weight covers will not stand up to hard riding on our roads. That's why "Dunlops" are so popular amongst motor cyclists—ample rubber is provided to guarantee you a big mileage.

WORKMANSHIP.—Our reputation depends on this, and as we endeavour to make every tyre we issue a standing advertisement—you get the benefit.

THEREFORE REMEMBER IT PAYS TO USE "DUNLOPS."

Stocked by all Leading Agents in "GROOVED," "STUDED," "RIBBED" and "LOZENGE" Patterns. Lists on Application
