**Get a "Crown"
that Won't
Come Off!**

A slightly decayed tooth should *not* be extracted. My expert treatment can restore it to usefulness.

First, the diseased part is carefully removed. Then a firmly-fixed Crown of gold makes the tooth thoroughly serviceable.

In supplying Crowns and Fillings—as in all other branches of Dentistry—my work always gives satisfaction. The patient's comfort is my chief consideration. Even the most difficult cases are successfully treated, owing to my wide experience and up-to-date appliances.

Let me examine your Teeth—NOW. "Delays are dangerous," especially with decaying teeth, which spoil digestion, poison the system, lower vitality. Consultations Free.
