**FOR STAINED GLASS****ECONOMIES  
THAT COUNT!**

Now tea has advanced in price, no woman need feel that she must buy some cheaper, inferior brand.

**REMEMBER**

the use of "Amber Tips" Tea is a well established economy because being a blend of *fine Ceylon Teas*, you use less and get a better cup of tea.

The "LANCET" investigations in 1911 proved that "*fine teas*" presented twice the physiological value of common teas, although the price of the former may be only 50% more, if as much."

**BEAR in mind these facts  
when next ordering tea.**
