A Dentist Pensioned by a King!

The first successful provider of Artificial Teeth was an Italian dentist who practised over a century ago. He supplied King Ferdinand of Spain with so useful a set that the monarch rewarded him with a handsome pension.

Although that denture proved satisfactory, it was crude compared with every set made here. My Platemaking is a distinct advance even on what is generally found in New Zealand. By means of an ingenious machine all Plates are moulded to an even thickness and with all roof-ridges. They fit perfectly and last for years. Only best quality teeth used.

If your present Plate troubles you, or if you are without a Plate, make an appointment. Satisfaction guaranteed.
