## Efficiency Enemies —Defective Teeth

Who ever heard of anyone working to the full extent of their efficiency whilst in ill-health?

And nothing is surer than that faulty teeth are responsible for serious ill-health.

It's only logical, anyhow.

Consider the myriads of germs that lurk in the recesses of a decayed tooth.

These corrupt the food, and, spreading throughout the system, undermine the health and disorganise the constitution.

Correct mastication is impossible, which means indigestion and its attendant ills, small and serious.

Avoid these "tooth tragedies" and increase your efficiency by having that decayed tooth of yours stopped, or those missing ones replaced.
