"How Natural!"

The highest recommendation of the Special Anas form Teeth which I fit on all plates, is that they are modelled as precisely as possible on a perfect, natural tooth. The reason is that they are even, strong and pearly-white.

That is just what you want, for it means that your set of teeth will mirror Nature.

Then consider the plates on which these perfect Anasform Teeth are mounted.

I have an ingenious machine for making plates to an even thickness throughout, and moulding them to conform minutely to every line and curve, every depression and elevation of the mouth.

This ensures that they will not break or become unwearable. They are warranted to last many years.

Painless extractions free when sets are ordered.

Consult me to-day. Consultation entails no obligation. Moderate fees always.
