To Maintain the Highest Producing Power of Your Land, Use Belfast Manures

Belfast Manures contain the properties of phosphates, ammonia, potash salts in the correct proportions, and restore to the soil those qualities used up by continual cropping.

Belfast Manures are specially prepared to suit every soil and readily pass through any drill.

No matter, therefore, whether you are sowing turnip, rape, mangel, potatoes, oats, wheat, or grass, use Belfast Manures, and you will get the best results at a minimum cost, while keeping the soil in the best condition.

For prices and full particulars, call on any of our agents, or write to us direct.
