

# H. L. Mencken

America's great Editor,  
Author and Publicist,  
knows more about the  
United States under  
Prohibition than any  
Prohibition Agitator in  
New Zealand

Here is  
H. L. Mencken's  
Verdict —

"There is not less drinking  
in the Republic--but **More**.  
There is not less crime--but  
**More**. There is not less in-  
sanity--but **More**. Respect  
for law has not increased--  
but **Diminished**. The  
young are now tempted as  
they were never tempted  
before. Progress takes a  
back turn."

(American Mercury, Dec., 1924)
