

If Father did the Washing?

- Saves Time—
- Saves Work—
- Saves Fuel—

METHVEN GAS COPPER

Cast-iron body—Practically everlasting
Patent drip-proof gas burner and Pilot
Light. Coated inside with English tin,
and therefore self-cleaning.

Ask your Ironmonger or Plumber
about the "Methven."

Methvens Ltd., Makers, Dunedin.

YES! If Father did the Washing next Monday, then every Home would have a Methven Gas Copper installed before next Saturday night. Fathers are used to figuring costs and they would say: "The saving in labour and fuel alone would pay for Methvenising the Washhouse in no time. Human life is far too valuable to expend on such Drudgery."

You will find the name METHVEN on many specialties that takes the Drudgery out of House Work. Look at it closely and remember it as the hall-mark of efficiency—the symbol of a friend.

Methven's Specialties are Stocked by all leading Ironmongers and Plumbers throughout New Zealand.
