"STEEL QUEEN" DISC-HARROWS

Smiling Homesteads
are Synonymous

terms — comparatively speaking! Smiling homesteads are those of wise farmers, and an important item of farm wisdom is "implementology"! The farmer well up in this subject knows that the best Disc-Harrows are the "STEEL QUEEN," and if he hasn't already one or more sets, this will be his first forward movement to make his Farm Equipment up to date—and more profitable! There's also a further point in the Disc-Harrowing question: If, with the usual amount of preparation of seed-beds for cereal crops, the average yield is, say, 35 bushels per acre, a couple of extra strokes with the "STEEL QUEEN" will probably result in a couple of bushels more per acre—which is a fairly conservative computation! Assess the average value at 5/- per bushel, and your land is producing 10/- per acre per year more than it will with the "slap-dash" methods usually employed! Fifty acres only at 10/- extra profit will practically pay for a set of "STEEL QUEEN" DISCS the first season, so, in reality, you get them for nothing, or very nearly so! That's all right, isn't it?

THE 1920 "STEEL QUEEN" IS BETTER THAN EVER!
