Description of Hadarezer Henry Stone, against whom there is a charge of forgery. He is about 30 years old, 5ft. 4in. high; is a very small, delicate person, of a shy, awkward, and sneaking manner, and very inquisitive; dark brown hair, almost black, full beard and moustache; has lost the sight of left eye—but this is only noticeable by a small scar on the pupil; walks with a particularly quick step, and without straightening his knees much; he is well educated, a B. A. of Cambridge, dresses well, and has the manner and appearance of a gentleman. It is supposed that he is gone to either Victoria or Queensland, and if so, he will, in all probability, practise as a surveyor, for which he has lately qualified himself, and purchased instruments, or he may write for a newspaper, for which he is equally well qualified. A warrant is about to be issued for this offender, whose photograph is filed in the Commissioner's office.
