Economic Blackstone Kerosene Engines

These Engines have never been beaten in competition, nor can they be for—

SIMPLICITY—Less working parts than most oil Engines.
RELIABILITY—No electrical connections; kerosene is always easily obtainable.
DURABILITY—These Engines are English made.
EASE OF OPERATION—All users are well pleased, because they start easily.

These Engines have good reserve of power and develop their rated power at a low speed; they are therefore a bigger engine for the money than most

ANDREWS & BEAVEN Ltd.
 FULL PARTICULARS POSTED ON APPLICATION
CHRISTCHURCH

THE
Mist Odor Purifier

For keeping rooms pure and healthy, and meat, poultry, fish, butter, milk, etc., perfectly fresh.
 For keeping the lustre of vehicles as good as new.
 For keeping nickel and plate free from tarnishing
 It is not poisonous, inflammable or explosive, and has no smell.

R.I.W.
 (REMEMBER IT'S WATERPROOF)

Toch Bros.
 320th Fifth Avenue, New York
 SPECIALISTS IN
 Technical Paints,
 Waterproof and
 Damp-proof
 Compounds.

TOCKOLITH (patented) renders metal immune to dampness and corrosion for all time. Stocks always on hand.

TOXEMENT waterproofs Concrete and outside Plastering against pressure. Two per cent. of Toxement is sufficient—that is, 8lb. to a cask of cement. Stocks always on hand.

WONDERKOAT ENAMEL, for Hospitals or where a first-class Sanitary Enamel is required. Looks like Porcelain; feels like Satin; wears like Leather. Is flexible and will not chip or mar. Stocks always on hand.

TOXLOXPORE is a colourless liquid for application on exterior surfaces of Brick, Cement, Concrete, Sandstone and Limestone Walls, rendering them impervious to the elements, preventing disintegration and preserving the original appearance. Large Stocks always on hand.
