

“WARM FROM TOP TO BOTTOM”
is literally true of a house
fitted with the modern “Ideal”
System of Warming by—

IDEAL & **I**DEAL
RADIATORS & BOILERS

Whose many advantages include:

Greatest healthfulness.

Any desired temperature in
each room.

Cleanliness.

Attention required only twice
daily.

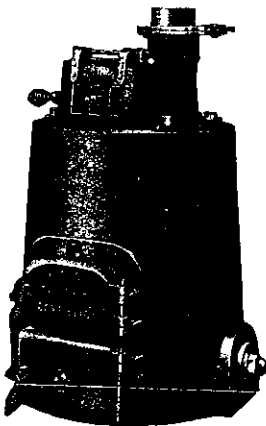

Absence of draughts.

Heat can be turned off in
unused rooms.

Adaptability to any building.

Saving in renewals of decor-
ations, carpets, curtains,
etc.

Fuel cost, 1d. per day per room.

Domestic Boiler.

FOR General Heating of Public and Private
Buildings, Factories, Theatres, Hot
Houses, etc. Also for Hot Water Supply for
Domestic Purposes, Hotels, Public Baths, etc.

In order to secure Efficiency, Economy,
and Satisfaction, insist on having “IDEAL”
Heating Goods. Specified by all leading
Architects.
