

Most of us thought:

- . . . for a loudspeaker to be accurate it had to be British.
 - . . . for a loudspeaker to be technically advanced it had to be American.
 - . . . for a loudspeaker to be good quality & price it had to be Japanese.
- introducing . . .

ENERGY 22

The Canadian made **ENERGY 22** so good the competition doesn't even come close.

Available only where this sign is displayed.

Every so often a new product comes along that stands the industry on its ears.

The **ENERGY 22** speaker is such a product — if you've been thinking of buying any Quality Name Brand speaker, think again.

The **ENERGY 22** is regarded as the most technically advanced, most accurate loudspeaker available today, at any price.

To quote a respected independent reviewer: "Exceptional overtone balance . . . imaging was just about the best I've heard . . . excellent Dynamic range . . . anyone looking for a system would be foolish not to carefully audition the **ENERGY 22** One of the most impressive speakers I have ever heard — Amazing at the price."

only **\$1699** per pair
including stands
