

# 24 ways to make a big hit with women.

Now, before you jump to any conclusions, the women we are talking about are the remarkable "When The Cat's Away", NZ's most successful all-women group.

And the hit we mean is, of course, their hit single, "Melting Pot".

Boy, did you ever get us wrong.

Watching "Melting Pot" rocket up the charts has been a pleasure for us, not least because it was recorded on 24 tracks at our new studio in Eden Terrace.

It's a big, comfortable place to work in, with a 1400 square foot studio that gives total live sound quality.

And our rates are so competitive, you'll wonder why you haven't used 24 tracks more often.

So, if you think you've got a hit on your hands, call Nick, Tim or Simon at Airforce, on (09) 777-669.

We're a melting pot of good ideas.
