## THE MOTOWN SONG BOOK

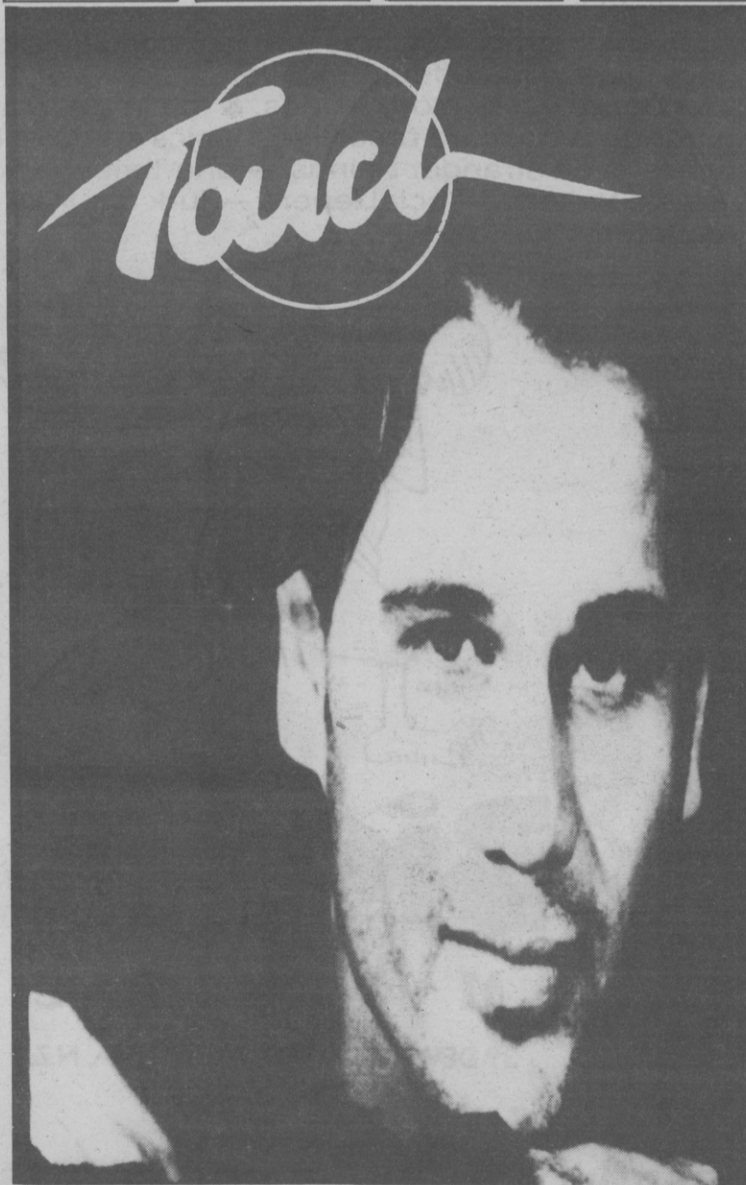

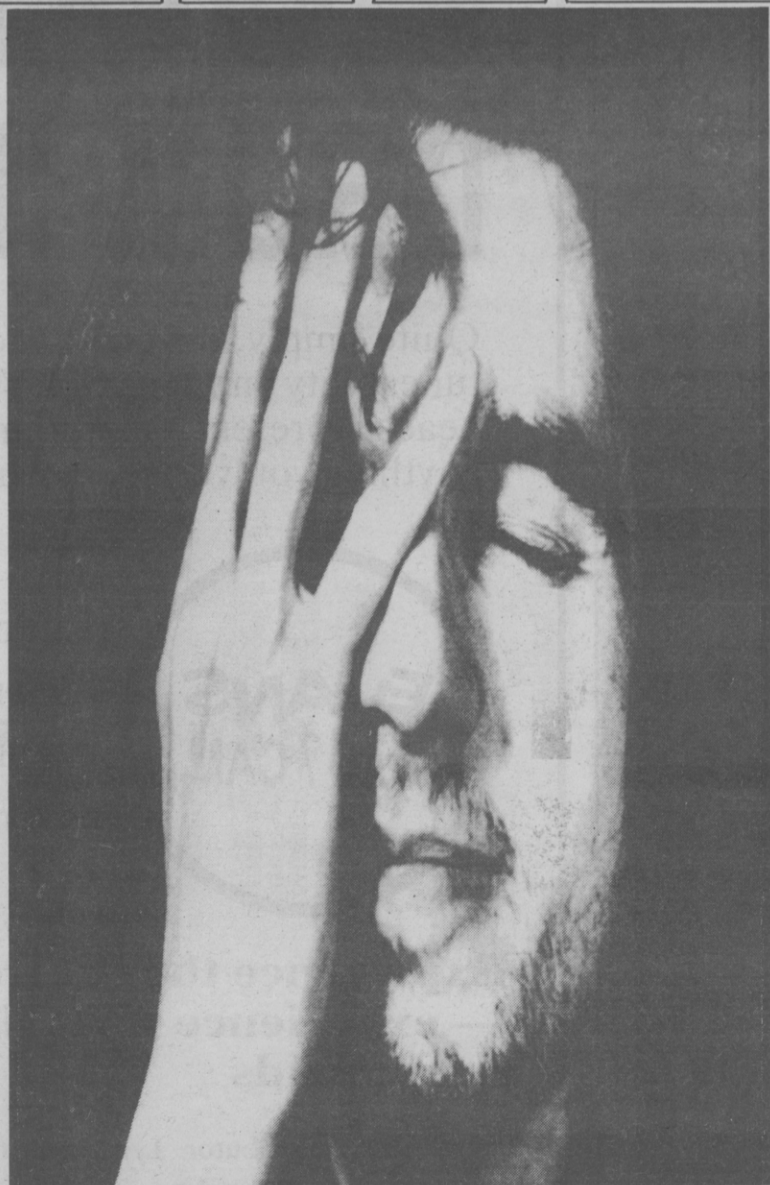

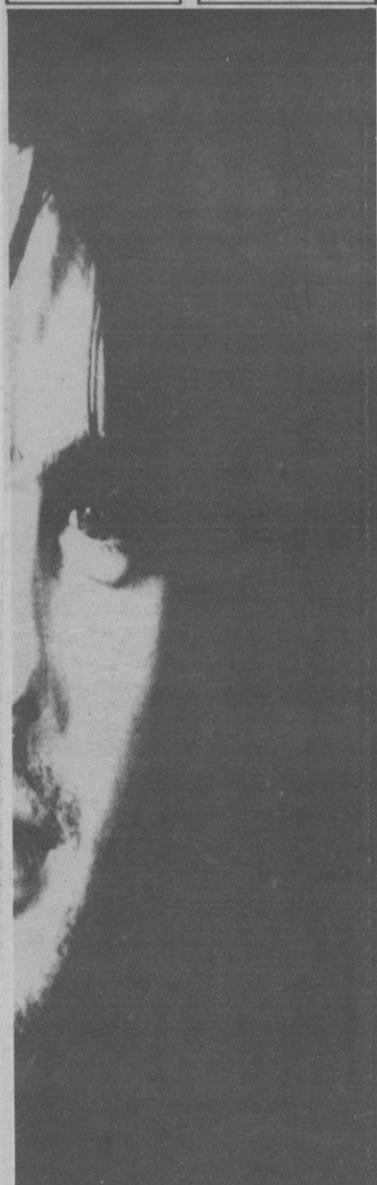

From the U.K.'s leading female soul singer comes a collection of ten Motown classics interpreted in her own unique style.

“What I have done here is to dip into one of the great sources of 20th century popular music, the Tamla Motown songbook, and come up with 10 great songs that I have truly enjoyed recording. I have been fortunate too in that some of the original artists agreed to feature. What a thrill for me to have stars like The Four Tops, The Temptations, Jimmy Ruffin and Junior Walker from Motor Town USA singing along with Ruby T. from Birmingham, England.”

Available on album/tape/compact disc.
