## NEW HAMMOND XB-2

### New Sampling Technology.

Now, the all-new DRH® sampling technology captures the sound and feel of the incomparable B-3.

The idea of sampling a B-3 has been around for a long time. So has the notion of making a portable instrument with Drawbars. But just sampling and adding Drawbars was not enough. Hammond has also recreated those idiosyncrasies of the tone-wheel generator that have eluded all previous digital systems.

The XB-2 flawlessly generates the pure flute sound of the B-3. And then goes on to add such things as the Drawbar foldbacks at the top and bottom octaves, the variances in key click, and the effect of overdriving a tube amplifier. The total effect of the XB-2 is the look, sound, and feel of the B-3. And it weighs only 30 pounds instead of over 400.

There's more. Hammond has incorporated features that were never dreamed of in the original B-3.

### MIDI.

The XB-2 can perform in virtually any MIDI environment. SEND and RECEIVE channels are programmable. LOCAL keyboard control can be turned ON or OFF. And the keyboard can be split into two MIDI ZONES with separate SEND channels, program numbers, and high and low limits for each ZONE. The keyboard will also transmit MIDI velocity information, and onboard MIDI modules can be silenced with the ORGAN SOLO control. A SYSTEM EXCLUSIVE DATA OUT feature allows the player to send complete preset and patch information in batch form to external MIDI devices.

### Patch Library.

The XB-2 contains a built-in library of 128 patches. Twenty-four of these are factory set and represent the most commonly used B-3 settings. The remaining patches can be user-defined and saved either as patches, or as presets. Presets are accessible from the eight controls on the front panel.

### Leslie Ready.

Any 11-pin Leslie tone cabinet can be plugged directly into the XB-2. An integral electronic circuit permits the Leslie effect to be heard even when connected to a standard amp.

### SPECIFICATIONS

Keyboard	C1 to C6	61-Key
<b>Drawbars*</b>	9 Pitches B-Type Mellow Brite Slow Attack Sustain	On/Off On/Off Upper/Lower Adjustable
<b>Percussion</b>	2nd 3rd Decay Volume Velocity	Fast/Slow Soft On/Off
