

LISTEN UP!

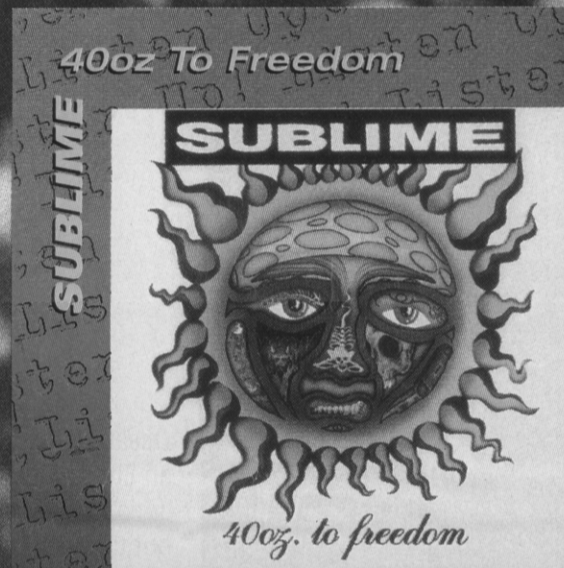

Wholesale Meats & Fish, the long-awaited follow-up to *Aurora Gary Alice*, is "here and now". 12 brand new tracks from Letters To Cleo capturing their full-throttle guitar-slurping pop power. Features the single 'Awake'. The goofy, smiley, happy loser pop band is back!

...Moloko will bring party voodoo vibes into your living room with a bizarre blend of smoky trip-hop, jungle, Gap Band/P-Funk rubbery bass, synth squiggles and vocals like a space-age Nina Simone... Deep, dark and too damn funky for words.

14 live tracks recorded at the Continental and Esplanade featuring classic Paul Kelly songs; 'To Her Door', 'God's Hotel', 'Dumb Things', 'Darling It Hurts' and 'Maralinga'. The perfect compliment to Paul's live NZ shows in April.

Call it ska, hip-hop, rap, progressive, alternative, soul, harmonic reggae, surf, punk, rock or whateverhaveyou... labels cannot define that which is Sublime. Kind of what would come out of the love-child of Peter Tosh & Beck after the Beastie Boys had their way with him. Contains extra tracks not on the U.S. release (24 tracks total).

Down By The Old Mainstream is the debut album by the soon-to-be legendary Golden Smog. This alternative roots-rock "supergroup" has created an album of instant classics. If you've followed American Rock music in the past ten years, you already know and love the members of Golden Smog. We can't tell you who they are - find out for yourself. NOW!

There are just as many songs about auto parts as the pleasure of nice-smelling hair, exactly the same number of up-tempo alternative rock contenders as plaintive, writerly ballads, three songs about bad dreams and only one about a pretty girl doing chores. Just so no-one gets the wrong idea. THE BEST NEW ALBUM THIS YEAR!!
